Poisson Structure on Compactification of Moduli Space of  
Representations

**Sean Lawton**

Department of Mathematical Sciences  
George Mason University

I will discuss a construction of the compactification of the moduli space of free group representations and a natural Poisson structure on it. This is joint work with Daniel Ramras and Indranil Biswas.

Date: **Friday, January 26, 2018**

Time: **2:30-3:20 pm**

Place: **4106 Exploratory Hall**

For special accommodations, please contact Sean Lawton via email at [slawton3@gmu.edu](mailto:slawton3@gmu.edu).
